ABOUT US

Attar Global Traders FZC is a trusted supplier of high-quality products, equipment and solutions for Sewage Treatment Plants (STP), Water Treatment Plants (WTP) and Industrial Water Systems.

We provide complete supply solutions for process equipment, pumps, valves, instrumentation, filtration media, chemical dosing systems, automation and spare parts used in water and wastewater treatment applications.

Our focus is on delivering reliable products, competitive pricing, timely delivery and professional support to help our clients achieve efficient and sustainable operations.

OUR MISSION

To deliver reliable and innovative water and wastewater treatment solutions through quality products, technical expertise and exceptional service.

OUR VISION

To be a leading and most trusted partner in the GCC for complete water and wastewater treatment solutions, creating value for our customers and a sustainable future.

WHY CHOOSE US?

QUALITY ASSURANCE

We supply products from trusted manufacturers that meet international standards.

COMPLETE PRODUCT RANGE

Wide range of STP, WTP and industrial products under one roof.

TECHNICAL EXPERTISE

Our team provides product selection support and technical guidance.

FAST & RELIABLE DELIVERY ACROSS GCC

Strong logistics network ensuring on-time delivery across the GCC.

CUSTOMER FOCUS

We build long-term relationships by delivering value, support and consistent service.

COMPETITIVE PRICING

Best quality products at competitive prices to support your projects.

INDUSTRIES WE SERVE

Municipal STPs

Commercial Buildings

Residential Communities

Industrial Plants

Hotels & Hospitals

Infrastructure Projects

Food & Beverage Industry

Pharmaceutical Industry

Oil & Gas Sector

Water & Utilities Companies

EPC Contractors

Facility Management Companies

OUR COVERAGE – ACROSS GCC

-  UAE
-  SAUDI ARABIA
-  QATAR
-  OMAN
-  KUWAIT
-  BAHRAIN

Delivering trusted solutions across the GCC with local support and global standards.

WHAT WE PROVIDE

WATER & WASTEWATER PRODUCTS

Comprehensive range of STP, WTP and industrial water treatment equipment for efficient and reliable operations.

- Aeration Systems
- Pumps
- Filters & Media
- Valves & Penstocks
- Screens & Equipment

PUMPING SOLUTIONS

High-performance pumps for sewage, water, and industrial applications with robust construction and dependable performance.

- Sewage Pumps
- Submersible Pumps
- Booster Pumps
- Drainage Pumps
- Transfer Pumps

VALVES & FLOW CONTROL

A wide range of industrial valves and penstocks designed for precise flow control and long-term durability.

- Butterfly Valves
- Gate Valves
- Knife Gate Valves
- Ball Valves
- Check Valves
- Penstock Gates

INSTRUMENTATION & AUTOMATION

Smart and advanced monitoring and control systems for efficient plant operation and real-time data management.

- Sensors & Analyzers
- Flow Meters
- PLC & SCADA Systems
- MCC & VFD

FILTRATION & TREATMENT MEDIA

High-quality filter media that ensures effective filtration and superior water clarity for all treatment systems.

- Silica Sand
- Activated Carbon
- Anthracite
- Garnet
- Gravel
- Manganese Dioxide

MECHANICAL EQUIPMENT

Reliable and efficient mechanical solutions for screening, grit removal and sludge handling.

- Bar Screens
- Fine Screens
- Grit Removal
- Screw Conveyors
- Clarifiers
- Skimmers

CHEMICAL DOSING SYSTEMS

Accurate and automated dosing solutions for effective water and wastewater treatment.

- Dosing Pumps
- Storage Tanks
- Mixing Systems
- Accessories

SPARE PARTS & CONSUMABLES

Reliable spare parts and consumables to ensure uninterrupted operations and extended equipment life.

- Diffuser Membranes
- Pump Parts
- Valves & Seals
- Filter Nozzles
- Gaskets & O-Rings

BUILT FOR PERFORMANCE. BACKED BY COMMITMENT.

AERATION SYSTEMS

Efficient Aeration. Better Performance.

We provide advanced aeration solutions designed to maximize oxygen transfer efficiency, reduce energy consumption and ensure reliable performance for all types of wastewater treatment applications.

HIGH OXYGEN
TRANSFER EFFICIENCY

LOW ENERGY
CONSUMPTION

LONG SERVICE
LIFE

EASY INSTALLATION
& MAINTENANCE

RELIABLE PERFORMANCE
IN HARSH CONDITIONS

ABOUT OUR AERATION SYSTEMS

We offer a complete range of aeration solutions and aerators designed to deliver maximum oxygen transfer efficiency with minimum energy consumption.

Our systems are built using premium quality materials, ensuring long service life, easy maintenance and reliable performance in all types of wastewater treatment applications.

WHY AERATION MATTERS

Efficient aeration improves biological treatment performance, reduces odors and sludge accumulation, and ensures compliance with environmental standards.

OUR AERATION SOLUTIONS

01 SURFACE AERATORS

Designed to provide high oxygen transfer efficiency by creating surface turbulence and maximizing oxygen absorption in wastewater.

- ✓ High Oxygen Transfer Efficiency
- ✓ Robust & Corrosion Resistant Construction
- ✓ Energy Efficient & Cost Effective
- ✓ Easy Installation & Low Maintenance

TYPES

- Floating Aerators
- Fixed Surface Aerators

02 MECHANICAL AERATORS

High performance mechanical aerators ideal for large-scale aeration requirements and deep tanks.

- ✓ High Oxygen Transfer Capability
- ✓ Durable & Heavy Duty Design
- ✓ Suitable for Continuous Operation
- ✓ Energy Efficient & Reliable

TYPES

- Brush Aerators
- Surface Aerators
- Submersible Aerators
- Vertical Shaft Aerators

03 FINE BUBBLE AERATION SYSTEMS

Fine bubble systems provide superior oxygen transfer efficiency with low energy consumption using advanced diffusers and blowers.

- ✓ High Efficiency Fine Bubble Systems
- ✓ Low Energy Consumption
- ✓ Uniform Air Distribution
- ✓ Complete System Solutions

COMPONENTS

- Blowers
- Diffusers
- Air Piping & Valves
- Control Panels

Improve
Treatment
Efficiency

Reduce Energy
Consumption

Lower
Operating Costs

Long Service
Life

Easy Installation &

BENEFITS OF OUR AERATION SYSTEMS

PUMPING SOLUTIONS

Powering Every Stage of Water & Wastewater Treatment

We supply a comprehensive range of high-quality pumps designed for reliable, efficient and long-lasting performance in all types of water and wastewater applications.

**RELIABLE
PERFORMANCE**

**HIGH EFFICIENCY
& ENERGY SAVING**

**ROBUST DESIGN
& DURABILITY**

**EASY INSTALLATION
& MAINTENANCE**

**LOW LIFE CYCLE

YOU CAN TRUST**

01 SEWAGE PUMPS

Designed to handle raw sewage, sludge and solids-laden liquids in the most demanding conditions.

- ✓ Clog-Free Operation
- ✓ Superior Efficiency
- ✓ Heavy Duty Construction
- ✓ Leak-Free Design
- ✓ High Solids Handling
- ✓ Corrosion Resistant

CAPACITY RANGE

Flow Rate : 1 – 2500 m³/h
Head : 5 – 60 m
Power : 0.37 – 315 kW
Discharge : 50 – 600 mm

KEY FEATURES

- High Flow Capacity
- High Head Options
- Long Service Life
- Minimal Maintenance

02 SUBMERSIBLE PUMPS

Built for continuous operation under water with excellent efficiency and reliability.

- ✓ Fully Submersible
- ✓ Easy Installation
- ✓ Overload Protection
- ✓ Compact & Lightweight
- ✓ High Efficiency Motors
- ✓ Cooling Jacket Option

CAPACITY RANGE

Flow Rate : 1 – 2000 m³/h
Head : 5 – 70 m
Power : 0.37 – 250 kW
Discharge : 32 – 500 mm

KEY FEATURES

- Watertight Design
- High Insulation Class
- Multiple Impeller Options
- Auto-Cut & Control Panels

03 BOOSTER PUMPS

Maintains consistent water pressure and flow for domestic, commercial and industrial systems.

- ✓ High Pressure
- ✓ Compact Design
- ✓ Variable Flow Options
- ✓ Quiet Operation
- ✓ Energy Efficient
- ✓ Low Maintenance
- ✓ Stainless Steel Options

CAPACITY RANGE

Flow Rate : 1 – 500 m³/h
Head : 10 – 160 m
Power : 0.37 – 160 kW
Pressure : Up to 25 bar

KEY FEATURES

- Constant Pressure
- Low Noise
- Easy Maintenance
- Smart Control Options

04 TRANSFER PUMPS

Ideal for transferring clean, dirty or corrosive liquids in a wide range of applications.

- ✓ Wide Range of Materials
- ✓ Easy Maintenance
- ✓ High Flow Capacity
- ✓ Back Pull-Out Design
- ✓ Reliable Sealing
- ✓ Chemical Resistant

CAPACITY RANGE

Flow Rate : 1 – 2500 m³/h
Head : 5 – 100 m
Power : 0.37 – 315 kW
Discharge : 25 – 400 mm

KEY FEATURES

- Versatile Design
- Multiple Material Options
- High Temperature Options
- Long Service Life

05 DRAINAGE PUMPS

Designed for effective dewatering and drainage in clean or mildly dirty water conditions.

- ✓ Lightweight & Portable
- ✓ Non-Clog Impeller
- ✓ High Flow Rate
- ✓ Low Maintenance
- ✓ Durable Design
- ✓ Automatic Operation

CAPACITY RANGE

Flow Rate : 1 – 1500 m³/h
Head : 5 – 30 m
Power : 0.37 – 75 kW
Discharge : 25 – 300 mm

KEY FEATURES

- Auto-On / Off
- Compact Design
- Energy Efficient
- Corrosion Resistant

WE SUPPLY PUMPS FROM TRUSTED MANUFACTURERS

Premium Quality
Global Brands

with Warranty

Wide Range
of Options

Technical
Documentation

Up to 300 mm
Fast Delivery

CUSTOM PUMP PACKAGES & SOLUTIONS

We offer complete pump packages including base frame, coupling, control panels, accessories and commissioning support as per project requirements.

KEY BENEFITS

HIGH RELIABILITY
Built for harsh environments and continuous operation.

LOW MAINTENANCE
Designed for easy maintenance and quick service.

ENERGY SAVING
High efficiency pumps reduce power consumption and operating cost.

LONG SERVICE LIFE
Quality materials and precision engineering ensure long-lasting performance.

PUMP SELECTION SUPPORT
Our technical experts help you select the right pump for your application ensuring optimum performance and better total cost of ownership.

FILTRATION MEDIA SOLUTIONS

Pure Media. Clean Water. Better Performance.

We supply high-quality filtration media that ensures efficient filtration, longer filter runs and consistent water quality for all types of water and wastewater treatment systems.

HIGH FILTRATION
EFFICIENCY

CONSISTENT
PERFORMANCE

LONGER FILTER
RUNS

NATURAL &
ECO-FRIENDLY

WIDE RANGE
OF APPLICATIONS

SILICA SAND

High purity, hard and durable sand used as the primary filtration layer in multi-media filters.

- ✓ High mechanical strength
- ✓ Low silt & clay content
- ✓ Uniform particle size
- ✓ Effective removal of suspended solids

ACTIVATED CARBON

Highly porous carbon media used to remove organic compounds, chlorine, taste, odor and color.

- ✓ High adsorption capacity
- ✓ Improves taste & odor
- ✓ Reduces residual chlorine
- ✓ Enhances overall water quality

ANTHRACITE

Lightweight and hard filtration media with excellent dirt holding capacity and high filtration efficiency.

- ✓ High porosity & hardness
- ✓ Low density
- ✓ Excellent abrasion resistance
- ✓ Reduces backwash frequency

GRAVEL

Support media used as the bottom layer in filters to support upper media and ensure proper flow distribution.

- ✓ Rounded & clean
- ✓ High strength
- ✓ Prevents loss of finer media
- ✓ Ensures uniform water flow

GARNET

High density, natural mineral used as an effective filter media for fine filtration applications.

- ✓ High specific gravity
- ✓ Superior filtration efficiency
- ✓ Low dust content
- ✓ Environmentally safe

KEY BENEFITS

-  Improves Filtration Performance
-  Reduces Turbidity & Suspended Solids
-  Longer Filter Run Time
-  Low Maintenance Cost
-  Consistent & Reliable Water Quality

APPLICATIONS

-  Water Treatment Plants
-  Wastewater Treatment Plants
-  Industrial Filtration Systems
-  Swimming Pool Filtration
-  RO Pre-Filtration
-  Irrigation & Agriculture

WHY CHOOSE OUR FILTRATION MEDIA?

PREMIUM QUALITY
RAW MATERIAL

STRICT QUALITY
CONTROL

TESTED &

TECHNICAL SUPPORT
& GUIDANCE

OUR COMMITMENT

We are committed to delivering high-quality filtration media that ensures efficient filtration, operational reliability and long-term performance.

RELIABLE SUPPLY
Consistent supply chain ensuring your projects stay on track.

CUSTOM SOLUTIONS
Media selection tailored to your system requirements.

AFTER-SALES SUPPORT
We support you beyond supply for complete satisfaction.

COMPLETE SOLUTIONS for Water & Wastewater Treatment Systems

We supply a wide range of high-quality products that work together to ensure efficiency, reliability and long-term performance of your systems.

01 VALVES & ACTUATORS

A wide range of valves and actuators for precise flow control, isolation and system safety.

CAPACITY RANGE

- Butterfly Valves : DN50 – DN2000
- Gate, Globe & Check Valves : DN15 – DN2000
- Ball Valves : 1/2" – 24"
- Actuated Valves : DN15 – DN1200
- Pneumatic & Electric Actuators : Torque up to 10,000 Nm

02 INSTRUMENTATION & CONTROL SYSTEMS

Advanced instrumentation and control solutions for monitoring, measurement and automation.

CAPACITY RANGE

- Flow Meters : 0.1 – 10,000 m³/h
- pH / ORP / DO Meters : 0 – 14 pH / ±2000 mV / 0 – 20 mg/L
- Level Transmitters : 0 – 60 m (Liquid Level)
- Pressure Transmitters : 0 – 100 bar
- Control Panels & PLC Systems : As per project requirement
- Sensors & Probes : Wide measuring ranges

03 CHEMICAL DOSING SYSTEMS

Reliable chemical dosing equipment for accurate chemical injection and treatment.

CAPACITY RANGE

- Dosing Pumps : 0.5 – 1,000 LPH
- Dosing Skids : Up to 10,000 LPD
- Storage Tanks : 50 – 10,000 Liters
- Agitators & Mixers : 50 – 5,000 Liters
- Accessories : Customized Solutions

04 PIPES, FITTINGS & ACCESSORIES

High-quality pipes, fittings and accessories for safe and leak-free operations.

CAPACITY RANGE

- uPVC / CPVC / HDPE Pipes : DN15 – DN1200
- Pipe Fittings : DN15 – DN1200
- Flanges & Unions : DN15 – DN1200
- Strainers & Foot Valves : DN15 – DN600
- Flexible Connectors : DN25 – DN600

05 ANCILLARIES & ACCESSORIES

Essential accessories to support smooth operation and easy maintenance.

CAPACITY RANGE

- Cable Trays : Width 50 – 1000 mm
- Lifting Chains & Hooks : Load 0.5 – 20 Ton
- Screens & Covers : DN200 – DN2000
- Weirs & Baffles : Customized Sizes
- SS Fabrication Items : As per drawing

RELIABLE PRODUCTS. SUSTAINABLE SOLUTIONS.

Empowering Efficient Water &
Wastewater Treatment Systems

We offer a comprehensive range of high-quality products from trusted global brands to ensure smooth operations, energy efficiency and long-term reliability.

Delivering **trusted engineering solutions** through a network of approved manufacturers listed with **TAQA, ADNOC, DEWA, EWEC**, and other premier utility and energy authorities.

**TRUSTED
QUALITY**

**WIDE RANGE OF
PRODUCTS**

**OPTIMAL
PERFORMANCE**

**LONG-TERM
RELIABILITY**

**COST

**TECHNICAL SUPPORT
YOU CAN TRUST**

01 BLOWERS

Efficient and energy-saving blowers for aeration and pneumatic conveying applications.

CAPACITY RANGE

- Air Flow : 50 – 25,000 m³/h
- Pressure : 0.3 – 1.2 bar
- Power : 0.75 – 250 kW
- Vacuum : Up to 700 mbar

KEY FEATURES

- High Efficiency
- Low Noise & Vibration
- Energy Saving
- Robust Construction
- Easy Maintenance

02 MBBR MEDIA

Advanced MBBR media for enhanced biological treatment and high microbial activity.

CAPACITY RANGE

- Specific Surface Area : 500 – 1,000 m²/m³
- Filling Ratio : 30 – 70%
- Material : HDPE / PP

KEY FEATURES

- High Surface Area
- Excellent Biofilm Growth
- Lightweight & Durable
- Chemical Resistant
- Long Service Life

03 SAND FILTERS

Reliable sand filters for effective removal of suspended solids and turbidity from water.

CAPACITY RANGE

- Flow Rate : 5 – 1,500 m³/h
- Filter Diameter : 600 – 3,000 mm
- Operating Pressure : 2.5 – 6.0 bar

KEY FEATURES

- High Filtration Efficiency
- Robust & Corrosion Resistant
- Easy Operation
- Backwash Efficient
- Low Maintenance

04 UV DISINFECTION SYSTEMS

UV systems for safe and chemical-free disinfection of water and wastewater.

CAPACITY RANGE

- Flow Rate : 1 – 1,000 m³/h
- UV Dose : 30 – 40 mJ/cm²
- Lamp Power : 16 – 320 W
- Wavelength : 254 nm

KEY FEATURES

- Effective Disinfection
- Chemical Free
- Compact Design
- Low Operating Cost
- Easy to Install

05 ANCILLARIES & ACCESSORIES

Essential accessories to support smooth operation and easy maintenance.

**ONE STOP SOLUTION
FOR ALL YOUR WATER &

OUR SERVICES

CONSULTATION & SYSTEM DESIGN

We understand your requirements and recommend the right solutions tailored to your application.

PRODUCT SELECTION & SUPPLY

Wide range of quality products from trusted global brands to ensure reliability and performance.

INSTALLATION SUPPORT

We provide technical guidance and supervision to ensure proper installation and smooth commissioning.

COMMISSIONING & TESTING

Complete testing and commissioning support for efficient and trouble-free start-up.

AFTER-SALES SUPPORT

Prompt after-sales service, spare parts support and maintenance assistance when you need it.

OUR WORK PROCESS

01

UNDERSTAND REQUIREMENT

We analyze your requirement and site conditions in detail.

02

RECOMMEND SOLUTION

We recommend the most suitable and cost-effective solution.

03

SUPPLY & DELIVERY

Quality products are supplied on time as per project needs.

04

INSTALLATION SUPPORT

We provide technical assistance for installation and commissioning.

05

AFTER-SALES SERVICE

We ensure continuous support for long-term reliability and customer satisfaction.

WHAT MAKES US DIFFERENT?

QUALITY ASSURED
Products from trusted global manufacturers

TECHNICAL EXPERTISE
Experienced team with in-depth industry knowledge

CUSTOMER FOCUSED
Solutions tailored to meet your specific needs

ON-TIME DELIVERY
Strong supply chain to ensure timely delivery of products

AFTER-SALES SUPPORT
Reliable support and service you can depend on

LET'S WORK TOGETHER

For reliable products, efficient solutions and long-term success.

We are ready to support your next project!
